

Pal Pavasiya

Mobile & Web Application Developer — React • React Native • Laravel

📍 Surat, India ✉ pal.pavasiyaa@gmail.com 🌐 palpavasiya.vercel.app

👤 Professional Summary

Mobile and Web Application Developer with hands-on experience building real-world, production-ready applications for startups and businesses. Strong expertise in React, React Native, and Laravel. I build complete solutions from scratch including mobile apps, web platforms, REST APIs, databases, admin panels, and ERP systems, with a focus on clean architecture and performance.

⚙️ Technical Skills

Frontend	React.js, Filament, Tailwind CSS
Mobile	React Native
Backend	Laravel, REST API Development
Database	MySQL, MongoDB, Firebase, SQLite
Tools	Git, GitHub, Postman, Android Studio, Xcode, Figma

📁 Experience

Freelance Full-Stack Developer — Self-Employed Mar. 2026 – Present

- Developing web and mobile applications using React.js, React Native, and Laravel.
- Building custom business systems including ERP platforms, admin dashboards, and REST APIs.
- Delivering complete full-stack solutions including system architecture, database design, and deployment.
- Working on real-world business applications such as fleet management systems, attendance platforms, and automation tools.

Full-Stack Developer (Freelance Contract) — Crystalcube Infotech Dec. 2025 – Feb. 2026

- Contributed to scalable web and mobile application development using React.js, React Native, and Laravel.
- Built and maintained RESTful APIs, backend systems, and database architectures.
- Developed admin dashboards, authentication systems, and business workflows.
- Focused on clean architecture, maintainable code, and production-ready solutions.

Full-Stack Developer — Byte Builders Co. Mar. 2024 – Nov. 2025

- Developed and maintained full-stack web applications using React, Laravel, and MySQL.
- Built and integrated RESTful APIs for frontend and backend communication.
- Implemented reusable components, performance optimizations, and scalable application structures.
- Collaborated with UI/UX designers and QA teams to deliver high-quality user experiences.
- Used Git, Postman, Firebase, and modern development workflows in production projects.

Full-Stack Developer Intern — Byte Builders Co. Dec. 2023 – Feb. 2024

- Assisted in developing and testing mobile and web applications using React Native and Laravel.
- Contributed to backend API development and database integration tasks.
- Worked on debugging, testing, and feature implementation under senior developer guidance.
- Gained hands-on experience in real-world full-stack application development workflows.

Projects

Quarry Accounting Management System

ERP System for Quarry and Mining Businesses

Tech: Laravel, Filament, MySQL, OCR, PWA

- Developed a complete ERP system to manage quarry operations and business workflows.
- Implemented modules for accounting, contractor (thekedar) management, machinery tracking, and production records.
- Integrated OCR-based weight slip processing to automate calculations and improve data accuracy.
- Generated financial, production, and service reports with export functionality.
- Enabled PWA support for field usage with secure role-based access.

Looms Management System

Textile Production and Workforce Management ERP

Tech: Laravel, Filament, MySQL, PWA

- Built a production management system for textile manufacturers.
- Implemented loom tracking, worker management, shift planning, and production monitoring.
- Automated salary calculations based on real-time production data.
- Designed admin dashboards with analytics and PDF report generation.

Cardeed — Car Rental & Fleet Management Platform

Web Platform for Vehicle Rental Businesses

Tech: React, Laravel, Inertia.js, Stripe

- Developed a car rental and fleet management platform for vehicle owners.
- Implemented vehicle listings, booking workflows, and real-time availability.
- Integrated online payments, document verification, and user reviews.
- Built admin controls for fleet management and dynamic pricing.

NFC Attendance Management System

Mobile and Web-Based HR Attendance Solution

Tech: React Native, Laravel, MySQL, NFC

- Built an NFC-based attendance system to eliminate proxy and manual attendance.
- Developed a mobile app for employee check-in and check-out.
- Created a web-based admin panel for HR operations and reporting.
- Added features such as leave management, salary slips, reports, and subscriptions.

Radiology Management System

Healthcare Web Platform for Dental Radiology

Tech: Laravel, Filament, MySQL

- Developed a secure healthcare platform for managing patients, clinics, dentists, and radiology images.
- Implemented role-based access control for clinics, doctors, and administrators.
- Centralized patient assignment and medical data workflows.
- Ensured secure handling of sensitive medical information.

Education

Bachelor of Computer Applications (BCA)
Veer Narmad South Gujarat University (vnsgu)

Mar. 2023 – Apr. 2026

Open to freelance and contract-based opportunities
